the first time in the history of the world, the
whole of the human race has been gathered
together in one place.

THE END OF THE DAY

It is now time to go to bed.
I have had a very good day.
I have done all the work I wanted to do.
I have had a good rest.

I am going to sleep now.

Good night, my dear friends.

Good night,

BRANT CEMETERY

As Brant Cemetery had rows running North and South and there were roads dividing the cemetery in four parts it was then thought that this would be the best way to list graves. The starting point was the extreme North West corner and rows were read West to East. In the matter of the new section lying East of the old one it was called section #5.

BRANT CEMETERY

As Brant Cemetery had rows running North and South and there were roads dividing the cemetery in four parts it was then thought that this would be the best way to list graves. The starting point was the extreme North West corner and rows were read West to East. In the matter of the new section lying East of the old one it was called section #5.
